

## Compatibility

Contact one of the Kenbri sales team with questions.

## Environmental impact

Fomtec Enviro 3x3 Ultra is formulated using raw materials specially selected for their fire performance and their environmental profile. Fomtec Enviro 3x3 Ultra is biodegradable. The handling of spills of concentrate or foam solutions should however be undertaken according to local regulations. Normally sewage systems can dispose foam solution based on this type of foam concentrate, but local sewage operators should be consulted in this respect. Full details will be found in the Material Safety Datasheet (MSDS).

## Storage / Shelf life

Stored in original unbroken packaging the product will have a long shelf life. Shelf life in excess of 10 years will be found in temperate climates. As with all foams, shelf life will be dependent on storage temperatures and conditions. If the product is frozen during storage or transport, thawing will render the product completely usable. Synthetic foam concentrates should only be stored in stainless steel or plastic containers. Since electrochemical corrosion can occur at joints between different metals when they are in contact with foam concentrate, only one type of metal should be used for pipelines, fittings, pumps, and tanks employed in the storage of foam concentrates. We recommend following our guidelines for storage and handling ensuring favourable storage conditions.

## Packaging

We supply this product in 25 litre cans and 200 litre drums. We can also ship in 1000 litre containers or in bulk.

## International Approvals

- EN 1568, part 3 and 4

Can 25 litres

Drum 200 litres

Container 1000 litres

### Technical data

Appearance	Clear yellowish liquid
Specific gravity at 20°C	1,035 +/- 0.01 g/ml
Viscosity at 20°C	≤ 4500 mPas
pH	6,5 – 8,5
Freezing point	-12°C
Recommended storage temp.	-12 - 55°C
Suspended sediment (v/v)	Less than 0,2%
Surface tension	≤ 28,0 dynes/cm
